

AxiomSL

Resolve all your regulatory difficulties
with our innovative RegTech solution

Always up to date with the latest regulatory standards

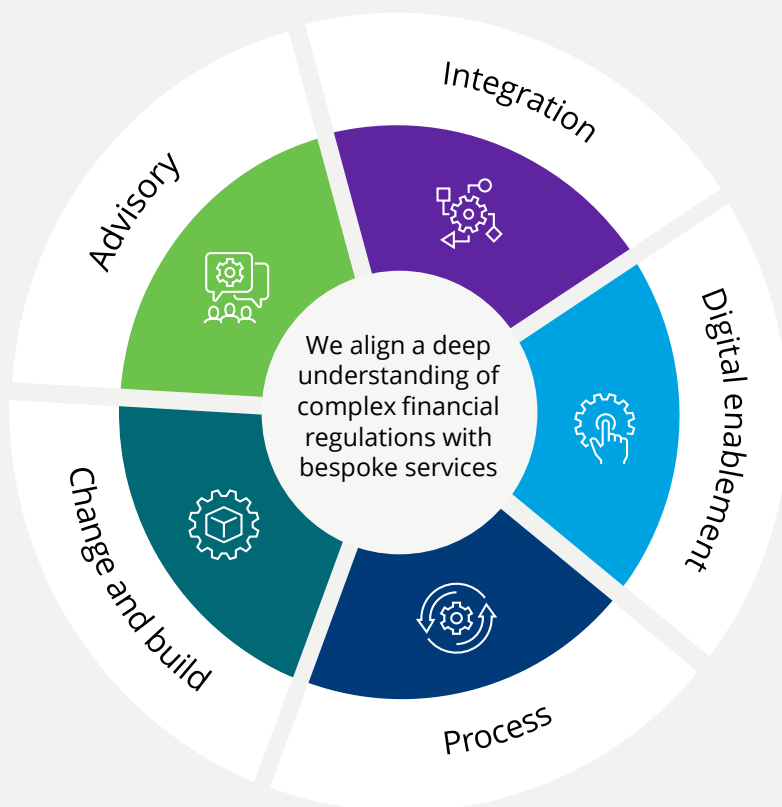

AxiomSL is an integrated risk-data management and reporting platform. It's built upon a flexible, modular architecture to provide scalable solutions. AxiomSL offers global regulatory coverage across 110+ regulators, 55 jurisdictions and 5,000+ regulatory filings.

The platform provides:

- Intelligent data integrity and a control platform with built-in lineage
- Management of cross-jurisdiction complexity
- Proactive surveillance of global regulations
- Bridging of the gap between finance and risk

Turn regulatory change into opportunity

Having completed over 500 projects, Luxoft has the proven ability to execute complex, scalable technology solutions, while cutting regulatory overhead costs.

Advisory

Strategic, regulatory and legal advisory on the feasibility of a proposed solution, taking into account local legislative and implementation nuances

Change and build

Help meet multiple regulatory demands, as well as reducing and controlling compliance costs through proven strategic solutions

Integration

Identify all buy/build needs, from implementing packaged solutions to integration with existing systems

Digital enablement

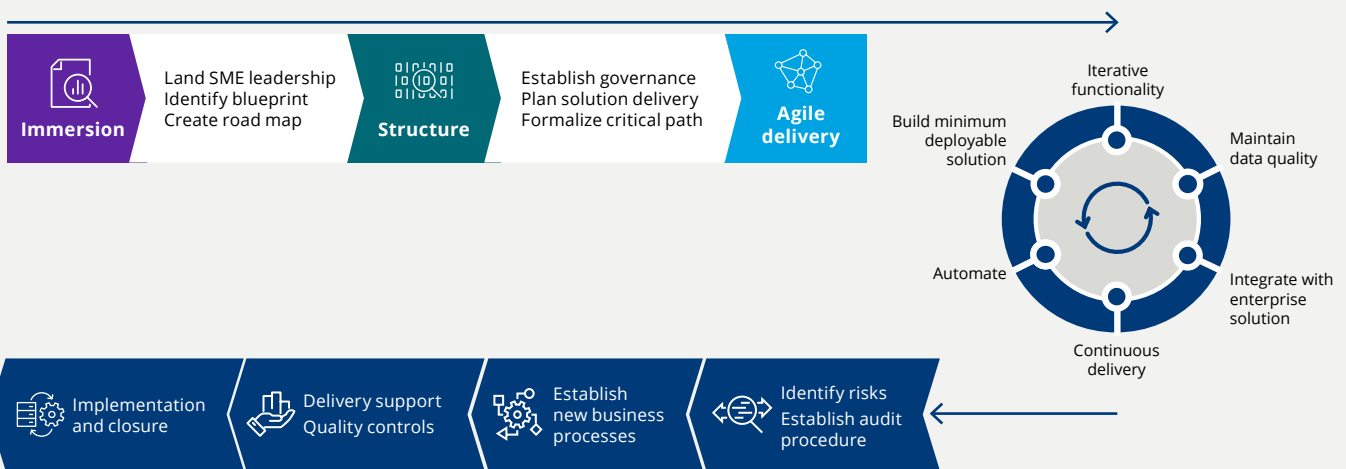

Meeting regulatory needs with new technologies that reduce time to market and improve performance and resilience

Process

Addressing, defining and implementing vital governance strategies, with robust management and reporting structures

Leverage our proven regulatory process

Regulatory experts enabled by a proven process and supported by the scalability of our domain-focused engineers, are the lifeblood of successful and predictable regulatory delivery.

- **Leverage** consultants' regulatory expertise
- **Apply** pre-built blueprints and design full front-to-back solutions
- **Mitigate risk** across the following dimensions:
 - **Scope:** Establish minimum conditions for compliance
 - **Technology:** Design technical solution early
 - **Delivery:** Build minimum deployable version first
- **Project management:** Clear governance / timely reporting / disciplined prioritization / transparency / dependency management
- **Leverage** continuous delivery approaches
- **Establish** ongoing audit and feedback processes
- **New regulatory requirements:** Adjust business and reporting processes

Why Luxoft

Luxoft, a DXC Technology Company (NYSE: DXC), is a digital strategy and engineering firm which provides bespoke technology solutions that drive business change for customers the world over.
